Our company, Munkyong Omija Valley, insists on producing high-end Omija products with value and respect towards nature, human well-being, and eco-friendly farming. We guarantee the safety and best quality omija with selected local farmers, who produce omija as a fresh raw ingredient.

We are striving to become a global agricultural food corporation, by capturing the taste of omija to captivate the world. We prioritize the values of both farmers and consumers by ensuring our contracted local farmers have blissful smiles and offering trust to our customers.
The fine red omija grows in Munkyeong which is located in the center of Baekduaegan. Our company, Munkyeong Omija Valley, insists on producing high-end Omija products with value and respect towards nature, human well-being, and eco-friendly farming.

We guarantee the safety and best quality omija with selected local farmers, who produce omija as a fresh raw ingredient. We are striving to become a global agricultural food corporation, by capturing the taste of omija to captivate the world. We prioritize the values of both farmers and consumers by ensuring our contracted local farmers have blissful smiles and offering trust to our customers.

We started as Munkyeong Omija Experience Village and was designated by Munkyeong City in 2007 to promote Munkyeong Omija. Now, the Munkyeong Omija Experience Village became our parent company and since then, we are making a constant effort to export to all countries by developing and producing various omija processed products.

Munkyeong Omija Valley Corporation will continuously try hard to make the world more joyful, happier, and healthier using omija.
Omija is a red-color fruit which has 5 flavors and helps proper health functioning. This fruit is rare and unique because of the 5 flavors that are contained in one fruit with outstanding effects in human longevity. This fruit only grows in certain regions of South Korea, China, northern part of Russia and Japan within weather condition that is favorable. Moreover, Omija has anti-oxidant and anti-inflammatory effect with a rich amount of Lignan component and it's being used as Oriental medicine stuffs and health functioning food and beverages.

Munkyeong is a blessed city with clean nature environment producing great amount of Omia and has been playing important role in caring people’s health by developing various health-functioning food and beverages. It has been proven and announced that Omija is beneficial to human body and it also has been utilized as essential medicinal-use material in the field of Oriental medicine in South Korea, China, and Japan over the years.
생 오미자

Fresh Omija

8월 말에 제철인 생 오미자는 5가지의 맛(산맛, 달맛, 쫄맛, 매운맛, 짙은맛)이 담긴 베리로의 최상급입니다. 청정 자연으로 오미자 재배에 최적화된 경제 환경에서 자라 높은 품질을 자랑합니다.

The seasonal fresh Omija, fruit of berry that has five different flavors(sour, sweet, spicy, bitter, salty), well ripes at the end of August. It is harvested from Gyeongbuk Munkyeong of clean nature which is optimized for Omija cultivation and boasts high quality.

건 오미자

Dry Omija

매년 8월 말, 오미자 재배 특구인 문경에서 수확한 생 오미자를 씻어내기 세척한 후, 원칙적으로 양성과 건조시켜 오미 자 본연의 색과 향을 느낄 수 있도록 만든 제품입니다.

Every year, at the end of August, we clean the raw Omija harvested in Munkyeong, a special zone for cultivation of Omija. Then, dry the Omija with far infrared method so that you can feel the taste and aroma of original Omija.

The Recommended Daily Amount of Omega-3(500~2,000mg) Packed with healthy nutrients:
Dietary fibers, Minerals, Antioxidants, Vitamins, Proteins, etc.
Gluten Free and Highest quality Chia seeds
Available in 2 delicious fruit flavors(Mango, Pineapple)

Chia seed, well renowned for centuries in Latin America, is a precious super-food consumed in various ways. Chia seeds can blend with water, milk, smoothies and variety of drinks, or added in salad, cereal, yogurt, and many other recipes of food.

Chia is an annual herb, and the size of the seeds are around 1mm with a small oval shape. For these reasons, the seeds can absorb up to 12 times their weight in liquid when soaked and develop a unique gelatinous texture in chia-based beverages.

Chia seeds are rich in Omega-3 fatty acids, dietary minerals calcium, iron, magnesium, manganese, phosphorus, zinc, and antioxidants. They also contain high amounts of thiamine, niacin, riboflavin, etc. For these reasons, Chia seeds have earned a reputation as a super-food.

Munyeong Omni Valley’s Chia Seed Drink contains highest quality of Chia seeds in each flavor of Pineapple and Mango provides enjoyable and convenient way to drink.
**Slim Diet Power S Jelly**
