ADWIN KOREA

Adwin Korea Corp is a leading developer, OEM contract manufacturer and global distributor of high quality beauty and healthcare products. Adwin Korea Corp specializes in R&D, manufacturing and packaging. Our R&D center has developed around 400 cosmetic products, and we cultivate strong partnerships with OEM business partners around the globe for over 20 years.

PRODUCT

Micro Fill Patch_Anti-acne
Purederm Micro Fill Patch series are advanced biodegradable filler treatment that effectively delivers Salicylic Acid into the skin without the pain and fear of using needles. Known for its excellent skin hydrating and filling properties, Salicylic Acid is effectively absorbed into the skin as a form of micro patch providing age defying effects and radiance to your skin.

Multi-Step Lip Care Kit
Purederm Multi-step Lip Care Kit, containing Lip Scrub(Step1) & Pink Gel Patch(Step2), is an innovative 2-step lip care program that combines the benefits of lip scrub and lip gel patch for maximum treatment results. The middle part of lip patch is open, so you can remove stuffiness during use and talk while the patch is attached.

Bueno is a Korean cosmetics manufacturing and selling company. From the night when the moon shines until the morning When the sun shines, with nature-friendly Phillosophy and eco-friendly management Bueno MEDITECH is healing your Skin.

Our product is a professional cosmeoectical skincare brand for at-home treatment, allowing you to cultivate and restore healthy and beautiful skin without any surgical method. Bueno MEDITECH develops with excellent ingredients and high-edged technology. Especially we developed our own MGF with 6 types of EGF and 3 types of peptide, which protect your skin from external allergenic and regenerate your skin.

Mostly, the other brand use only 3 or 4 GF but we use all of these 6 GFSs, and also the peptide. Our brand does not use eight ingredients that are bad for our skin. Which are ALS, SLS, Mineral Oil, Sulfate, Urea, Talc, BHT and Colorants.

Our main product is skin care than the color cosmetics. The famous one is this black line. Our MGF line is very famous in Russia. We have already sold out this line and no stock for now because it's in renewing process. It will come out with new design and better quality on coming February. We have toner, emulsion, serum and eye-cream in our MGF line.

Our MGF serum is produced by stem cell professional company but not by cosmetic production company. Products of Bueno Meditech are MADE IN KOREA by combining key substances of peptide, which is jointly developed with Bio FD & C, and MGF of stem cells with patented materials.

The MGF series is made by Dr Moh Sang-Hyeon and professional researchers, who have studied stem cells continuously for 10 years. It uses only pure natural substances for your skin, providing safety and excellent effects. In addition, it is based on eco-friendly substances to be softly absorbed into your skin Beyond the limitations of conventional cosmetic ingredients, Bueno’s MGF series combines a variety of stem cell science.

Inspiration
A design that puts basis in Simplicity, which is the basic foundation of a word mark and in Minimalism that expresses moderate beauty. A uniform line of words without any change in thickness shows a simple image, however, a word mark type consisting of only lowercase letters gives a visual pleasure because of the different heights from other lowercases and the ‘1’ highlighting the ascenders, additionally it gives a familiar visual to the customers and a correct expression of prioritizing the customers.

Philosophy
cnf has a clairvoyant perspective in leading the cosmetics future cnf grows together with the customers and has its enterprise spirit in making the customer's value the highest priority, have the ultimate goal of the customer's satisfaction, reward with the best quality to the customers' expectation and as one of the top-ranking companies in global standard, in order to show the status of it, cnf's '1' has been emphasized even more to express the perspective and future to our customers.

THE ICELAND MASK
1. Eco-friendly fabric originated from nature, Pure Seal
   It is a 100% natural oriented fabric extracted from natural wood pulp, and has a smoother texture than silk. It is more absorbent than cotton and has a 0.2mm thickness with good adhesion and clear transparency.

2. Contains fruit extract
   Masks that provide health and clarity to the skin through the inclusion of concentrated fruit extracts of natural energy.

3. Two Essences by Skin Type
   2 types of essence that are used according to various skin type and problem

DUKSUNG CO., LTD.

Duk sung is one of major PU suppliers to several global brands. Founded as a pioneer in the field of synthetic leather on 1966, now have 5 factories in Korea and China. Working closely with our customer from development stage, we do our best to create the most innovative materials. And the intensive activity of our R&D center makes our innovative idea become commercialized in the market, and its advanced technology and skills enable us to produce better performance, fashion, and especially environmentally friendly materials.

PRODUCT

NEOPORA is a cosmetic puff that is manufactured by our own unique technology. NEOPORA is consist of three layers, NEOPORA-P, Sponge and JONES. The upper layer is covered by JONES to prevent any contamination from outside. The middle layer gives air contention playing a roll to keep it close to your skin. The bottom layer is NEOPORA-P having continuous microporous polyurethane cells. These micro cells can easily absorb liquid foundations and help them to be applied evenly and thinly to skin. NEOPORA is the one for your perfect makeup for sure.

HANWOONG INC.

Hanwoong Inc. has been manufacturing and distributing the topmost skincare products since 2017. We have been running the business with developing and manufacturing the variety of skin care products for client’s needs based on effort of improving quality, competitive price, fresh packaging and delivery on time.

We achieved numerous patents and ISO22716 while developing new products constantly. As a result, we bring the advanced quality improvements to the cosmetic market with various skin care products for our customers’ beauty and health with convenient methods.

We will continuously develop our technology to bring happiness and beauty for our customers. Thank you very much.

PRODUCT

Super Hydrating Gel Products - A newly developed soft hydrogel for intensive moisturizing care. This Soft hydrogel that contains various cosmetically effective ingredients and moisture in specially designed gel matrix gives enough nutrition and moisturizing to skin. New concept of Super Hydrating Gel has been developing to make up for the weakness of Facial Essence & Standard Hydrogel Mask and upgrade the strength of them.

Hydrogel Products
Hanwoong’s hydrogel products have a perfect fit onto facial contour with fast infusion of moist and nutrient into skin. It is an easy and convenient way to rejuvenate skin with various formulations and multiple ingredients. Specially designed for face and body.

Oil gel patch
It is a patented pure soft gel sheet composed with essential oils only. It maximizes the active ingredients infused into skin. Oilgel products create oil barrier on skin and prohibits from skin dryness. Hydrated skin with oilgel becomes silky and soft.

Essence Mask & Nose Cleansing Strip
Essence Mask: Different natural ingredients help your face remain clear, fresh, smooth, relaxed, revitalized and hydrated.
Nose Cleansing Strip: Revolutionary way to cleanse & tighten pores! A dramatic difference after 1 time use only.

Miracell Co., Ltd.

Miracell Co., Ltd. is a Korean stem cell specialized company with an experience of more than 30 years on the domestic and international market. Miracell manufactures its own patented adult stem cell concentrator and provides a regenerative therapy global platform. Based on Miracell’s expertise, we developed Cellpia Cosmetics, an exclusive cosmetic brand that contains human stem cell culture medium as the main ingredient that delivers a high amount of growth factor.

PRODUCT

Cellpia Ampoule helps in skin balance, delaying skin aging and upgrades the complexion of the skin. It contains 50,000ppm undiluted stem cell culture medium that delivers a high amount of growth factor, which is known for its anti-aging properties, collagen synthesis, and tone correction.

Cellpia Blanc Mask is a natural crystal sheet that covers every crease on the skin, helps repair skin in a short time, soothes irritated and sensitive skin. The stem cell culture medium and the natural ingredients penetrate deep into the skin, provide elasticity and help in skin tone improvement.

Cellpia Blanc Booster moisturizes and nourishes the skin and it is safe to use for both sensitive/troubled skin. The clear and bright skin is brought by the stem cell culture medium and along with the 7 natural plant-derived ingredients, it brings a hypoallergenic and emollient effect to the skin.

Cell Protein Cream which consists of 3 lines, supplies rich nutrients, revitalizes tired skin and moisturizes deep within for a long-lasting anti-aging, elasticity and nourishment effect.

Modam Global Nature CO., LTD.

Modam Global Nature was re-established in 2019 (Changed name from Modam Korea (2013)) to develop a solid shampoo bar in order to prevent hair loss which is one of the biggest problems among modern people. We have been developing the natural solid shampoo bar by researching herbal ingredients that are not merely cosmetics, but maximizing the efficacy through patented fermentation technology in Korea and USA. In addition, it has created creative products through a variety of attempts such as mask packs made of Ashwagandha known as Indian ginseng and red ginseng fed snail’s slime. 100% natural mosquito repellent candle also invented. Modam has exported many countries such as Japan, Indonesia, Singapore, Vietnam and continuing brisk contact with other countries such as Europe, USA and other countries.

PRODUCT

Natural Fermented & Ripen Modam Solid Shampoo Bar
Made with 100% natural ingredients that do not contain chemical components. The shampoo bar contains 13 kinds of herbs good for hair loss such as oseongcho, Siberian chrysanthenum, wormwood, green tea, fenral seed, thuja, pine leaf, mint, persimmon leaf, red ginseng, rosemary and moringa. Fermentation ripening technology eliminates the toxicity of herbs and further breaks down the particles maximizing the absorption rate of nutritional components of herbs. When you start to wash your hair with the shampoo bar, inflammation on your scalp will be reduced, and then your hair will get thicker. Finally, you can see hair growth. It’s also good for various scalp troubles such as stress-induced hair loss, itching caused by scalp drying and dandruff.

Modam Hair Shampoo
The Shampoo is good for not only to prevent hair loss, but also to increase hair elasticity and thickness. It also has effective functions - removing dandruff, itching and scalp troubles. It contains effective herbal ingredients that supply the intensive nutrition for scalp and prevent irritation and hair loss of the scalp. The fermentation ripening technology eliminates the toxicity of herbs and further breaks down the particles and reduces scalp inflammation. It has been approved by the Korea Food and Drug Administration for hair loss prevention, quasi-drug certification for wool, quasi-FDA insecticide and heavy metal test.

Ashwagandha Fermented Mask
It consists of 2 STEP - pure vitamin C ampoule and mask sheet. The main ingredient is Ashwagandha which is called ‘ginseng in India’. Based on the skin science and history of Ayurveda, it’s an ancient medicinal herb which has been used for over 3,000 years. It is richer in saponin than other products, and excellent for whitening and anti-wrinkle. Also, it contains medicinal herbs such as stevia, moringa oil, graviola, green tea, dong quai, cinnamon, licorice, and oseongcho. The mask sheet with soft and smooth inside is good for adhesion to your skin smoothly. At the same time, it helps pure vitamin C ampoule to penetrate into the skin better.

Newfeel Co., Ltd., established in 2011, uses only Clean Beauty and Vegan ingredients while containing no harmful ingredients. Newfeel owns two brands: Huangjisoo and Hello Ganic. Huangjisoo is a natural skin care brand that combines innovative technology with proven natural ingredients; Hello Ganic is a brand designed to bring the experience of selecting and applying green foods for the skin by adopting the organic market concept. Every formulation is developed by Dr. Huang – providing consumers with pure, natural and effective skin care. Each product undergoes rigorous clinical testing before being released on the market. Our sensual products are enjoying rapid growth, while being exported to major stores and grocery chains such as Whole Foods and Costco in over 20 countries.

**PRODUCT**

**huangjisoo Pure perfect cleansing oil**
100% plant-based oil & 0% refined water gently remove water-proof makeup and heavy color makeup. This one-step cleanser leaves no stickiness or oiliness after use, ensuring no need for additional foam cleaning.

**huangjisoo Sakura Peeling Radiance Pads**
Infused with cherry blossom extract and PHA exfoliant, this low-irritating peeling pad gently and effectively exfoliates, tones, and brightens all skin types.

**Hello Ganic One a Day Water sheet mask**
With various proteins and rich active ingredients in coconut, this mask helps hydrate and strengthen the skin moisture barrier by providing the moisture the skin.

OxygenCeuticals

We are a manufacturer from the South Korea specializing in Oxygen infusion therapy. We combine Korean spa techniques along with oxygen infused skincare (OxygenCeuticals) and advanced oxygen infusion system (OxyCryo) to meet the needs of our clients. The OxygenCeuticals and OxyCryo is the #1 medical grade oxygen therapy system in Korea, adapted by over 600 famous medical aesthetic institutions. We take pride in our product research and development, education, training and services we offer to our customers.

**PRODUCT**

**AstrodomeFacial (Quantum mist postcare Robot)**
Targeted light waves + NIR along with Anion & Oxygen Mist to naturally stimulate skin rejuvenation and improve problem skin conditions. A state-of-the-art facial dome built in with two LED photo therapy panels, one for skin and another one for scalp. The dome delivers beneficial light energy through various wavelengths (red, blue and violet). The dome is also capable in delivering nutrients to skin via oxygen and anion mist.

**OXYCRYO (Order made solution infused with pure oxygen)**
A state-of-the-art medical grade facial device. The OxyCryo with 3 main functions in a box, offers skin and scalp with pure oxygen, ozone and anion therapies. The medical aesthetic professionals have use the OxyCryo system extensively for pre-conditioning, post-care and for complementing various professional skincare programs. FDA listed class 1.

**OXYGENCEUTICALS (Medical grade oxygen cosmetics)**
The OxygenCeutical™ skincare line was developed 16 years ago based on the research idea that oxygen was the best therapy for problematic and post procedures skin conditions. In addition to pure and stabilized oxygen, the brand offers powerful skin rejuvenating benefits with pharmaceuticals grade actives. Plant based stem cells, peptides, epidermal growth factors and botanical extracts are fed on skin through the advanced Cautosome™ delivery technology. Today, the OxygenCeuticals™ brand has grown to be a trusted medical aesthetic skincare brand. The products are used by dermatologists, plastic surgeons and medical aesthetic professionals to complement before and after in-office procedures.

Established in 2011, SM is a professional developer and manufacturer, specializing in beauty-related articles. The goods that the Company developed are functionally dedicated refrigerators for cosmetics, a beauty massage device for dual use of cold temperature and ultrasonic wave.

Facing nail market expansion since 2016, we developed innovative nail dedicated dust collector that uses world's first disposable filter for a single use. We started to produce nail dust collectors in April 2018, and we began to export the goods to foreign countries such as Japan, UK, USA, Taiwan, Netherlands, and New Zealand, etc. This product started to become a popular item from nail technicians of various countries. In addition, SM has obtained the certificate of FTA origin certified exporter. The importing tariff was exempted for importers who conclude FTA with Korea. Thus, importers' competitiveness has been enhanced while equipping with competitiveness with other countries. Finally, we have newly born as a small but strong enterprise.

Our products have been officially approved as KOREA Origin and being an Approved Exporter means customers who buy our products can benefit from any preferential duty rates. I can issue Certificate of origin when it comes to FTA between US or EU and south Korea. You don’t have to worry about Import Duty from US or EU customs FTA certified. It is not a method to shake off the filter from existing dust collector and reuse it. It is new concept nail dust collector, based on the world’s first disposable out filter method. As the existing filter method is the way to shake off and reuse, large amount of dust occurs during shaking off. Since Zephyros uses filter based on a single use concept, you don’t need to shake off the filter and filter is not blocked. Thus, nail dust collection ability is not reduced.
Small Lab Co., Ltd. develops differentiated products by applying convergence technology of various areas including medicine and beauty based on DDOS technology. As a microneedle development and manufacture specialist, Small Lab Co., Ltd. uses an automated clean room facility that is optimized for manufacturing microneedles in order to meet the ever-changing demands of the market.

**PRODUCT**

1. **ELDEEN Age Twenty One Micro Therapy Program**
   The current MTS that are in the market are made with either steel or plastic. So, it can be evasive and takes longer to regenerate the skin while using different ampules to penetrate into the skin. ELDEEN Age Twenty One Therapy Program is made with 250um dissolving microneedles. The active ingredients from the microneedles penetrates under the skin in non evasive way. The dissolving microneedles carry out the hyaluronic acid and triple peptide into the deep layers of your skin.

2. **ELDEEN Age Twenty One Mifit Patch And Serum**
   ELDEEN Age Twenty One Mifit patch is a new beauty device. Mifit patch carrier contains Hyaluronic acid and triple peptide, which is the main active ingredient. With over 800 dissolving microneedles made with Hyaluronic acid is penetrated to the deep layers of skin and deliver fast effective results. Eldeen’s HA acid Mifit technology is 250um and with the silicone band, it is convenient and safe to use. The innovative Eldeen Age Twenty One Mifit patch will help boost and improve the condition of your skin. Due to the protective barrier of the outer skin layer, it’s been limited for an active ingredients to penetrate to the deep part of the skin with cream or serum. However, with Eldeen Age Twenty One Mifit patch with 21% of peptide solution and Hyaluronic acid will directly deliver these ingredients to the deep layer of skin.

Sulmae Co., Ltd.

Sulmae is Korean cosmetic manufacturer, especially specialized of mask sheet and hydrogel patch. We have developed differentiated mask pack sheet (sticker type) from ordinary facial mask sheet. Therefore, we have obtained patent of this sticker type sheet and its manufacturing method as well. And we have know-how in this field that no companies can match. So we lead this unique mask sheet in worldwide market.

**PRODUCT**

**Sticker Mask Sheet**
Sticker Mask Sheet is a sticker type mask pack, which is to peel off each from the sheet and put on any point of your skin. 100% Tencel sheet is used and the formula is compliant with CPNP AND VEGAN standard.

**Vegan Face Sheet**
It is a facial mask that contains natural formula such as lemon, tomato, camellia and Selaginella Lepidophylla plant extract. Also is compliant with CPNP AND VEGAN standard, and the sheet is made of 100% Tencel.

**PATCHMATCH (Hydrogel Patch) — Eye, Neck, Lip, Nation**
The hydrogel patches are fitted to lip, eyes and neck and help moisturizing on dry skin. The booster essence using with patches helps whitening and wrinkle care.

Thank You Farmer

Established on 2015, we made a small crop for cosmetic market. We are trying to make a cosmetic more natural, and now our products are being expanded globally not only Western market but also SEA market. Our small crop was to be bigger than the first time. Now we have 26 SKU for CPNP of all crops, the SKUs are being increasing. Based on our value (honesty, earnestness, and gratitude), we work for beauty market.

PRODUCT

Our crops is based that we explore and select the best benefit-rich botanicals and rare extracts for healthy and balanced beautiful skin. These are for hydration, nourishment, cleansing, and suncreen. Plus our designs are simple but elegant, and practical but beautiful.

Wellmax Co., Ltd.

Good cosmetics for successful skin management. Wellmax is skincare that focuses on protection of the skin from the external environment as one ages rather than effectiveness on current problems, and this is successful skincare for beautiful aging.

Wellmax presents plant-based expert cosmetics that contain many elements that are light and have no side effects but are truly effective, and the effective products have been loved continuously for a long time.

**PRODUCT**

**[Callus Peel Kit]**
Only 15 minutes. You can see the difference!
This 15 Minutes for Four step system includes a skin softening patch that is wrapped around the heel & toe to soften the skin, a special scraper to peel off the dead skin(calluses) followed by the third step to buff away the remaining calluses. The treatment is completed by applying moisturizing cream. All four items are presented in a kit. By combining an easy and fast process that everyone can do from a nail tech to a consumer.

**[Callus Peel Mist]**
This system takes 3 minutes from start to finish. It is so much easier than other products and has no harmful chemicals. The pH of Peeling Mist is weak balance: pH 6.5. You don’t have to wear gloves or masks as all the ingredients are from cosmetic raw material.
The Fastest Treatment. 3min. is sufficient The Result: The Cleaner and moisturized foot Easy Treatment. Just Mist & Peeling. After spraying on callused area, file the callus away.

Established in 1969, we are a leading manufacturer of a variety of luxury packaging papers, fabrics and OEM swatch books in Korea. WingWing stands out for its positioning in top-value added market thanks to its superior and constant quality of the product. Dedicated to innovation and focused on value, we are now one company that can do so much more to you. We are not a big company, but a big one in trust and advanced technology.

1. WingWing Covermaterial
The 150gsm distinctive papers, created by twin-direct PU coating technology, will expand application fields infinitely that cannot be expressed by ordinary materials. O2 model carries “visual and textual likeness” of genuine leather, and Siduce model carries “most creative and unique design” with visual impact. These are very suitable for turned-edge wrapping application.

2. WingWing Folding Cardboard
It is basically carries same designs, features and textures as O2/Siduce model except heavier 250gsm/350gsm weight. It is designed to meet rapidly-growing luxury folding carton market. The machine-crafted cardboard are suitable for making a premium box or case more easily and last.

3. WingWing Premium Shopping Bag
Unlike the conventional paper bags, WingWing luxury shopping bag will be used much more than just once to carry the purchased goods around. It will extend your brand with gorgeous, retail shopping bags that carry your premium message wherever your customer roams. Superior visual bag must be the best tool to advertise and enhance your brand image.
